

T32 POSTDOCTORAL FELLOWSHIP IN HIV AND ALCOHOL RESEARCH

The Southern HIV and Alcohol Research Consortium (SHARC) seeks Postdoctoral Fellows interested in translational science research and training focused on reducing the impact of alcohol on HIV infection, behavioral and clinical interventions, and/or neurocognition and brain science.

Postdoctoral Fellows will develop an original research program under the guidance of a faculty mentor, participate in research seminars and training experiences, and engage in individual and group mentoring sessions with distinguished faculty mentors including Co-Directors Drs. Robert Cook, Robert Leeman, and Robert Lucero together with faculty colleagues representing diverse disciplines across the university.

SHARC faculty mentors are affiliated with six departments and four colleges at the University of Florida, including:

Clinical & Health Psychology: Jeff Boissoneault, PhD; Ronald Cohen, PhD;
Eric Porges, PhD; Catherine Price, PhD, ABPP; Adam Woods, PhD

Epidemiology: Robert L. Cook, MD, MPH; Xinguang Chen, MD, PhD, FACE;
Linda Cottler, PhD, MPH, FACE; Mattia Prosperi, MEng, PhD; Yan Wang, PhD

Health Education & Behavior: Robert Leeman, PhD; JeeWon Cheong, PhD; Jalie Tucker,
PhD, MPH

Nursing: Robert Lucero, PhD, MPH, RN, FAAN; Anna McDaniel, PhD, RN, FAAN; Diana
Wilkie, PhD, RN, FAAN

Pathology: Marco Salemi, PhD

Psychiatry & Psychology: Sara Jo Nixon, PhD

For more information about the SHARC T32 training program and to learn about application requirements, we invite you to email sharct32@phhp.ufl.edu or any of the faculty mentors listed above.

Preliminary inquiries should include the following documents and may be submitted by email to sharct32@phhp.ufl.edu:

- Statement of Interest
- Curriculum Vitae

Applying:

All appointments to this training grant are restricted to U.S. citizens, legal permanent residents of the U.S. and noncitizen nationals. Persons on temporary or student visas or who require visa sponsorship are not eligible for this training grant.

Start Date:

Review of applications will be conducted on a rolling basis. Initial appointment will be for 12 months and is renewable annually up to two years contingent upon satisfactory performance and availability of funding.

Compensation:

Trainees receive stipends at standard NIH levels (NIH levels are described here: <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-070.html>) as well as financial support for research and travel expenses and health insurance.

Diversity and Inclusion:

The University of Florida is an equal opportunity institution. Individuals from underrepresented populations are strongly encouraged to apply for this postdoctoral opportunity. We highly encourage the applications of scholars from diverse backgrounds and experiences, scholars of color, scholars from rural backgrounds, scholars who have been the first in their families to pursue postsecondary or postgraduate education, and scholars interested in using academic research to drive social change.
